Project Notifications

NOTICE OF A PROPOSAL TO ENGAGE IN A RENEWABLE ENERGY PROJECT AND NOTICE OF PUBLIC MEETING

To be held by Zephyr Farms Limited regarding a Proposal to Engage in a Renewable Energy Project

Project Name: BROOKE-ALVINSTON WIND FARM

Project Location: The Project will be located in the Township of Brooke-Alvinston, Lambton County, Ontario.

Dated At: This the 22nd of July, 2010.

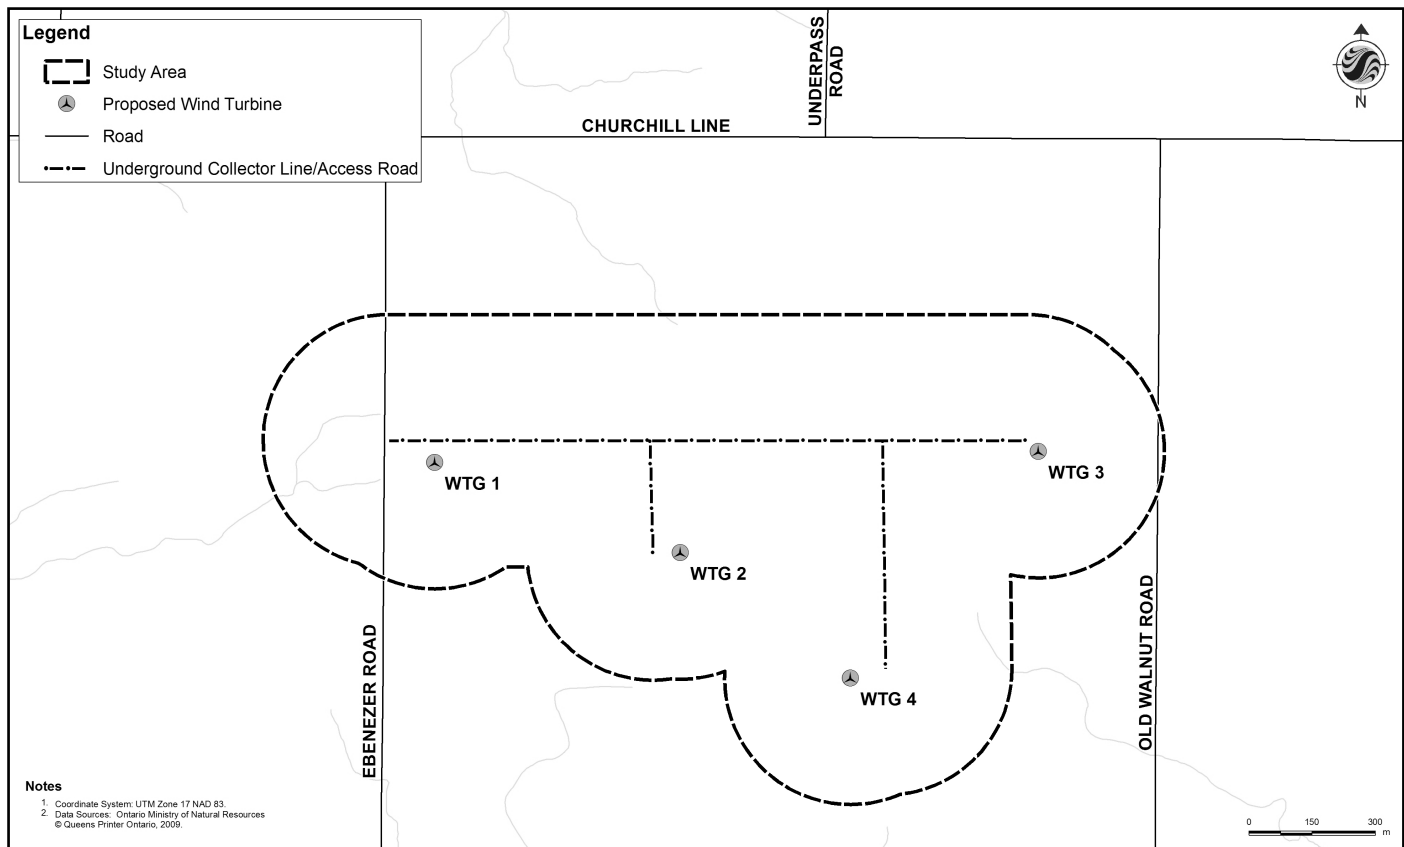

Zephyr Farms Limited is planning to engage in this renewable energy project in respect of which the issuance of a Renewable Energy Approval (REA) is required. The distribution of this notice and the project itself are subject to the provisions of the *Environmental Protection Act of Ontario (Act) Part V.0.1* and Ontario Regulation 359/09 (Regulation). This notice is being distributed in accordance with section 15 of the Regulation prior to an application being submitted and assessed for completeness by the Ministry of the Environment.

Meeting Location:

DATE: August 26, 2010
TIME: 5:00 P.M. to 9:00 P.M.
PLACE: Brooke-Alvinston-Inwood Community Center, Upper Hall
3310 Walnut Street, Alvinston, ON

Project Description and Documents for Public Inspection:

Pursuant to the Act and Regulation, the facility, in respect of which the project is to be engaged in, is considered to be a Class 4 wind facility. If approved, this facility would have a total maximum name plate capacity of 10 MW. The project location is described in the map below.

The project is being proposed in accordance with the requirements of the Act and Regulation. The Draft Project Description Report titled *Brooke-Alvinston Wind Farm: Draft Project Description Report* describes the facility as a Class 4 wind facility with a name plate capacity of 10 MW and consisting of 4 wind turbines. The project would also include electrical collection lines, a substation, and other ancillary facilities such as access roads. A written copy of the Draft Project Description Report is being made available for public inspection on the project website at: <http://www.oneworldenergy.com/newspaper.html>

Further, Zephyr Farms Limited will prepare additional supporting documents in order to comply with the requirements of the Act and Regulation. Written copies of the draft supporting documents will be made available at the Township of Brooke-Alvinston municipal office and on the project website for public inspection at least 60 days before the final project Open House.

Project Contacts and Information:

 Notice of a Proposal to Engage in a Project & Notice of Public Open House

Please find attached the Notice of a Proposal to Engage in a Project and a Notice of Public Open House for the above-mentioned project. Zephyr Farms Limited has been awarded a Power Purchase Agreement with the Ontario Power Authority (RESOP 11836) and is proposing to develop the 10MW Brooke-Alvinston Wind Farm in the Township of Brooke-Alvinston, Lambton County, Ontario.

Your agency or group has been included on the project's consultation distribution list. If a Stantec representative has not already been in contact with you, we may contact you in the near future regarding the project and potential environmental information your agency may possess to assist in the permitting process. If our contact information should be amended please contact the undersigned at your earliest convenience.

We look forward to working with you, and obtaining your valuable input, as this project progresses through the regulatory approvals process. We hope that you can attend the Public Open House described on the attached notice. Alternatively, to provide the project team with your comments or for further information about the project, please contact the undersigned.

Draft Project Description Report**

On behalf of Zephyr Farms Limited, please find enclosed the Draft Project Description Report and Notice to Engage/Public Open House for the proposed Brooke-Alvinston Wind Farm to be located in the Township of Brooke-Alvinston, Lambton County, Ontario. Zephyr Farms Limited has been awarded a Power Purchase Agreement with the Ontario Power Authority (RESOP 11836). The Project would include four wind turbines with a maximum name plate capacity of 10 MW, as well as electrical collection lines, a substation, and other ancillary facilities such as access roads.

The Draft Project Description Report provides a summary of the Project as required by Ontario Regulation 359/09 - Renewable Energy Approvals under Part V.0.1 of the Act of the *Environmental Protection Act* ("the Regulation").

The Notice to Engage/Public Open House will be published in the Watford Guide Advocate and Sarnia Observer on July 22nd and 29th, 2010. Please let us know if you would also like a copy of the Notice to be published in a newspaper within your community.

In the event that you have any questions or concerns, please do not hesitate to contact the undersigned. We look forward to working with you throughout the development of this renewable energy initiative.

Sincerely,

STANTEC CONSULTING LTD.

Enclosure: Notice of Proposal to Engage in a Project & Notice of Public Open House

CC. Brent Hall, Zephyr Farms Limited

NOTICE OF FINAL PUBLIC MEETING

To be held by Zephyr Farms Limited regarding a Proposal to Engage in a Renewable Energy Project

Project Name: BROOKE-ALVINSTON WIND FARM

Project Location: The Project will be located in the Township of Brooke-Alvinston, Lambton County, Ontario.

Dated At: This the 16th of December, 2010.

Zephyr Farms Limited is planning to engage in this renewable energy project in respect of which the issuance of a Renewable Energy Approval (REA) is required. The distribution of this notice of final public meeting and the project itself are subject to the provisions of the Environmental Protection Act of Ontario (Act) Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice is being distributed in accordance with section 15 of the Regulation prior to an application being submitted and assessed by the Ministry of the Environment.

Meeting Location:

DATE: February 17th, 2011
TIME: 5:00 P.M. to 8:00 P.M.
PLACE: Brooke-Alvinston-Inwood Community Center, Upper Hall
3310 Walnut Street, Alvinston, ON

Project Description and Documents for Public Inspection:

Pursuant to the Act and Regulation, the facility, in respect of which the project is to be engaged in, is considered to be a Class 4 wind facility. If approved, this facility would have a total maximum contract name plate capacity of 10 MW. The project location in the Township of Brooke-Alvinston, Lambton County, is described in the map below.

The project is being proposed in accordance with the requirements of the Act and Regulation. The Draft Project Description Report titled Brooke-Alvinston Wind Farm: Project Description Report, describes the facility as a Class 4 wind facility with a contract name plate capacity of 10 MW and consisting of 4 wind turbines. The project would also include electrical collection lines, a substation, and other ancillary facilities such as access roads. A written copy of the Draft Project Description Report was made available for public inspection on July 22nd, 2010 at the project website noted below.

Further, Zephyr Farms Limited has obtained or prepared, as the case may be, supporting documents in order to comply with the requirements of the Act and Regulation. Written copies of the Draft Project Description Report and draft supporting documents will be made available for public inspection starting on December 16th, 2010 to February 17th, 2011 at the Brooke-Alvinston Township office in Alvinston at 3236 River Street and on the project website noted below.

**Reference: Brooke-Alvinston Wind Farm, RESOP CONTRACT 11836
Draft Renewable Energy Approval Documents**

Further to our correspondence of July 19, 2010, in which we provided you with a copy of the Draft Project Description Report, and our recent correspondence of December 13th, 2010, in which we provided you with a copy of the Draft Project Summary Report, the purpose of this letter and enclosed material is to provide additional information about the proposed Brooke-Alvinston Wind Farm (the Project). As part of the Province of Ontario's environmental review process, we are currently seeking your feedback on the enclosed material by February 17th, 2011.

Zephyr Farms Limited has been awarded a Power Purchase Agreement by the Ontario Power Authority (RESOP 11836). The Project would include four wind turbines with a maximum name plate capacity of 10 MW, as well as electrical collection lines, a substation, and other ancillary facilities such as access roads. Zephyr Farms has retained Stantec Consulting Ltd. (Stantec) to prepare a Renewable Energy Approval (REA) Application, as required under Ontario Regulation 359/09 - Renewable Energy Approvals under Part V.0.1 of the Act of the Environmental Protection Act (O. Reg. 359/09). As part of the REA process, we are providing you with draft copies of the REA reports for your review and comment. This includes copies of the following draft reports:

- Project Summary Report
- Project Description Report (updated from the draft provided July 19, 2010);
- Construction Plan Report;
- Design and Operations Report;
- Decommissioning Plan Report;
- Wind Turbine Specifications Report;
- Natural Heritage Assessment Report;
- Water Report;
- Heritage Resources Assessment Report;
- Stage 1 Archaeological Assessment Report; and
- Stage 2 Archaeological Assessment Report.

Please let us know if you would like an additional copy of the above reports to be available within your community.

December 15th, 2010
Page 2 of 2

The Draft Project Summary Report provides an overall summary of each REA document that has been prepared for the Project and provided to you as part of this package. The Draft Project Report Summary also provides a summary of the potential environmental effects including those which the Project may have on constitutionally protected aboriginal or treaty rights.

As part of your review of the Draft Project Summary Report and entire Draft REA document package, we request that you provide any information available to your community that in your opinion should also be considered in the REA documents (that has not already been considered), and in particular, any information your community may have about any adverse impacts that this Project may have on constitutionally protected aboriginal or treaty rights and any measures for mitigating those adverse impacts. We previously provided you with this request on July 19, 2010 and December 13th, 2010 and wanted to follow-up with you to ensure your concerns are addressed as part of the REA process. We respectfully request such information in writing no later than February 17th, 2011 so that they can be appropriately taken into consideration during the planning stages of the proposed Project. To help facilitate, we are available to further discuss this with you by telephone or in person.

In addition, please find enclosed the Notice of Final Public Meeting for the above-mentioned project. The Notice will be published in the Watford Guide Advocate on December 16th, 2010 and the Sarnia Observer on December 16th and 17th, 2010. Please let us know if you would also like a copy of the Notice to be published in a newspaper within your community.

Sincerely,

STANTEC CONSULTING LTD.
